

# Are you on a training rollercoaster? Do you invest time and money in training new employees and then they leave?

 SAW's large workforce of 235 workers is ready today! Our SAW, Inc. staff learn your job and expectations and then train and supervise our enrollees to get the job done!

### Having trouble attracting entry level workers?

Often, the jobs that other employees may find repetitive, tedious or just not challenging is an exceptional fit providing excellent training opportunities and a sense of accomplishment to our enrollees.

### Are you considering sending work overseas?

Avoid shipping costs and operational headaches while getting cost-effective labor right here! Get task-driven work completed on time and on budget. Continuous training, on-site management and quality control is maintained by the SAW staff, alleviating any worry.

# Spending a lot of time and money on HR functions for new employees?

SAW, Inc. will handle all the HR functions for our workers - payroll, workers compensation, background checks, etc.

## How does it work?

Individuals perform a routine task such as attaching bolts and nuts to conduit, labeling envelopes, or filling bags. Supplies delivered to SAW's Adult Activities Centers in Northeast Ohio and returned to your organization on an agreed upon schedule. Materials remain on site in a clean and protected area throughout the project. Our Activities Centers are ready to accept your delivery with loading docks, warehouse space and operations staff with tow motor training to unload your truck. Then, our continuous labor force ensures project completion.
